Working for NIFS has been such a blessing and wonderful experience. It has allowed me to grow as a person and as a professional. I have been able to use my education and training to help others achieve their health and fitness goals, without members having to worry about paying for training. I truly enjoy what I do, and I appreciate coming to work, which in itself says how great the experience has been.

My experience working for NIFS has been wonderful. This is a company that truly values its staff! From the support you receive with continuing education, programming creativity, and general day to day questions that arise, you can always feel your efforts and ideas are respected and reinforced from your directors.

Working for NIFS is like being a part of a family. I feel support from the top of the organization to the bottom. I can reach out to any NIFS employee and they will do the best they can to help out. Best company I have worked for.

Though my co-workers and I don't physically work "together" because we're all over the country, the community we have is quite collaborative. I know who has what strengths and who to go to for specific expertise or advice. This supportive environment not only makes my work rewarding, it also allows me to provide our client the service they need and deserve.

With years of experience in managing both corporate and community fitness centers we do it right. Managing your facility is what we do best to help your members live a healthier life.
